Press Enter to play a round ...

Next Round

One on square 51 with 41 yottawatt of power remaining
Two on square 19 with 45 yottawatt of power remaining

Press Enter to play a round ...
```

On the third round, Player Two ended up on square 19 with only 45 yottawatts of power having been on square 20 the previous round with 56 yottawatts of power. On that third round Player Two threw a total of 10 and landed on square 30 which is a Blackhole Square (see declaration in Board.CS {30, 19, 11}) so landed on square 19 and consumed 11 yottawatts of power

```
C:\Sandpit\Part A single game only\Space Race Part A incomplete\Space Race\bin\Debug\Space Race.exe

Two on square 20 with 56 yottawatt of power remaining

Press Enter to play a round ...

Next Round

One on square 51 with 41 yottawatt of power remaining
Two on square 19 with 45 yottawatt of power remaining

Press Enter to play a round ...

Next Round
